JOB OBJECTIVE

Supply Chain / Purchasing / Logistics / Foreign Trade Manager / Consultant

SUMMARY OF QUALIFICATION

Global Supply Chain Management professional with a proven track record in optimizing value chains within the chemical and automotive sectors. Boasting extensive worldwide experience, I have successfully led operational logistics teams across various geographies, managing inbound, outbound, and internal/external/bonded warehousing processes. My expertise extends to overseeing procurement teams involved in local, imported, inter-company, and third-party collaborations on a global scale. Proficient in managing international trade services, covering import/export, drawback, and bonded warehouse operations. Seasoned in steering strategic supply chain projects globally for enhanced efficiency and profitability. My career journey reflects a commitment to delivering seamless supply chain solutions across borders. Available for relocation worldwide.
